

CLIENT REFERENCES

Thanks, **Michael**, for the memorable Mexico trip. You really do know how and where to find those endemics! I look forward to the next one. **DR. ROBERT RIDGELY – New Hampshire**

I now consider **Michael Carmody** of **Legacy Tours** to be the best field guide in North America. **DAN CANTERBURY – Florida** [First person to record 800 species for the ABA, Mexico, & North America; 2009 ABA List Report]

During extensive trips in Mexico and the USA – while searching for the most rare and difficult birds - **Michael Carmody** has been my guide. His comprehensive site knowledge, route planning, identification skills, and call recognition brought near total success to my expeditions, helping me through to my 8,000th bird. **TOM GULLICK – Spain** - [First to 9,000 life birds - September 2012]

Our recent trip was one of the most memorable and rewarding I have ever taken. A remarkable group of people and skilled and patient leadership made for a great combination. Thanks, and looking forward to the next one. **PHIL SWAN – California**

I have traveled with many top tour leaders, and **Michael Carmody** ranks with the best. If you want to see Mexican endemics, he is the person. **KENNETH BERLIN – Washington DC**

With the help of **Michael Carmody** of **Legacy Tours** - who put the icing on the cake for us - we realized our goal of becoming the first persons to tally 800 birds in *both* the ABA Area and in the country of Mexico. **RED & LOUISE GAMBILL – Texas**

I have visited Mexico three times, and the best-led birding tour was with **Michael Carmody**. **ROGER CLIFFORD (The Owl Man) - Virginia**

They say; ‘no one gets them all’ - but we did! I’ve had the pleasure of birding with **Michael Carmody** on several occasions. In addition to being knowledgeable about the Mexican birds in his "patch", **Michael** is also a most convivial companion. **DAVID NARINS – Florida** [#1 for North America with a total of 1,853 as of the 2012 ABA List Report]

Because of your ability to consistently produce the key birds of a region **Legacy Tours** is increasingly recognized as the only way to bird Mexico. **HAL OPPERMAN - Washington**

Michael Carmody owns USA based **Legacy Tours** specializing in the 100+ endemic birds of Mexico. Small group tours are offered annually to the major endemic bird regions of Mexico. Custom trips for private parties are arranged for target birds in other select destinations with advance notice. Contact **Legacy Tours** for a current schedule of tours, or to inquire about a personalized birding trip.
