**HERITAGE-STYLE BIRDING TOURS** - are offered in a small number of interesting countries. These nations must have an interesting selection of birds, but not so many species within their borders that the Heritage-Style becomes 'swamped' by a sense of duty toward finding new birds. Though birding remains the central focus of a Heritage-Style Birding Tour, the daily program incorporates a variety of appealing activities such as historical and cultural interactions. There are always fewer 'moves' from one location to another, as the pace of the tour is an important element of a successful Heritage-Style Tour. Most meals are enjoyed while sitting down at a table, with few picnic lunches or cold breakfasts. Often a less interested friend, partner, or spouse finds this type of 'birding trip' an absolute delight! Within Mexico only the '**Yucatan Tour**' affords the infrastructure and other elements that allows for combination of both the endemic birds and the Heritage-Style format.
